Bachelor of Science (Civil Engineering)

Machakos University

2019 - 2024

Pursuing a Bachelor of Science in Civil Engineering, to learn about the keys and building blocks of Civil Engineering and Engineering in general

Kenya Certificate of Secondary Education

Murang'a High School

2015 - 2018

Finished secondary education with a grade of B+ and attained 72 points.

LANGUAGES

English Level: Proficient

Kiswahili Level: Proficient

French Level of Proficiency: B1

PROFILE

A highly motivated and skilled Civil Engineering student with a passion for software development, combining a strong foundation in engineering principles with extensive experience in web development. I excel in both backend and frontend technologies, including Python (Django, Flask) and React, with proficiency in database management using PostgreSQL and MySQL. My freelancing background has honed my ability to deliver high-quality, customized digital solutions, while internships in engineering and operations have strengthened my project management and problem-solving skills. Eager to contribute to innovative projects, I am adaptable, a quick learner, and fluent in English, Kiswahili, and French (B2).

WORK EXPERIENCE

Freelancing Software Developer

Self-employed

July 2022 - present

- Freelancing Software Engineer since August 2023, focused on building websites and web applications.
- Expertise in frontend development with React and backend development using Django and Flask.
- Provide digital solutions, including database management with PostgreSQL and MySQL.
- Develop robust, scalable, and user-friendly applications tailored to client needs.
- Strong problem-solving skills with the ability to deliver high-quality projects within set timelines.

Operations Intern

Herdy Fresh

January 2019 - September 2019

- Operations Intern at Herdy Fresh from January 2019 – July 2019.
- Helped manage projects from conception to completion, ensuring high-quality deliverables within project timelines.
- Tasked with loading products into the database and assisting in daily operational tasks.
- Worked closely with the assistant Chief Operations Officer (COO) to streamline processes.
- Contributed to managing the company website while learning the basics of software development.
